

AUSTRALIAN WORKPLACE COMPLIANCE AND TRAINING

SAFETY AND COMPLIANCE IS EVERYONE'S RESPONSIBILITY

2018

AWCT are a professional and independent forklift consulting company.

Expert advice based on knowledge from the inside.

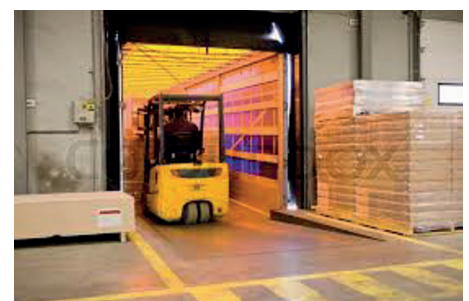

Our professional and experienced consultants offer unparalleled knowledge in helping companies fully comply with Worksafe requirements and address the current climate of heightened enforcement. We can provide help for all your business management needs and have specialist consultants with varied areas of expertise.

Our consultants identify any hazards, program deficiencies and potential Worksafe violations in your operations and develop programs to address them.

AWCT provides a diverse range of services to assist you with regulatory compliance requirements. Whether it is a written program or company wide employee training, AWCT can enhance the qualifications & safety awareness of your most important asset "your employees".

We specialise in all facets of Forklift and Materials Handling safety.

Please contact our friendly staff and see how our company can help yours.

AUSTRALIAN WORKPLACE COMPLIANCE AND TRAINING

DOES YOUR BUSINESS MEET CURRENT WORKPLACE REQUIRMENTS?

IF IN DOUBT – CALL US

We can carry out a site inspection and will provide you with an evaluation of our findings. We can then discuss and work with you to ensure your business meets current requirements. *

We look at all types of Materials Handling related issues, such as:

- Forklifts and other Materials Handling Equipment
- Forklift Attachments
- Data Rating Plates
- Forklift Servicing
- Forklift Condition
- Pre-Shift Inspections and Documented Records
- And more

Working with **Australian Workplace Compliance and Training** to become compliant is achievable and can result in huge savings to your business long term as well ensuring your business avoids crippling fines and litigation.

Please contact us to arrange a site inspection.

* All findings and recommendations to make you site complaint can be quoted and detailed in a comprehensive report.
